## [Z] DecoTec® 5433 - TopOil BioWeatherProtectX

[Z] DecoTec® 5433 is a high-solid, environmentally friendly, natural wood oil. [Z] DecoTec® 5433 penetrates deep into the wood and is characterized by an excellent care effect and very good UV protection. It protects the wood ideally, preserves its natural look and makes the wooden surface dirt and water repellent. It is biocidal, very quick drying and very easy to use.

It offers protection and decorative beauty for non-dimensionally stable wooden outdoor components without earth contact, especially also recommended for facades and other universal wooden surfaces in the outdoor area.

### The highlights

- + 2 in 1: Excellent impregnation and film building for a perfect care effect
- + Extra high weather and UV protection
- + Dirt and water repellent
- + Natural look and beautiful finishing
- + Even surface after just one application
- + Fast drying and easy to use
- + Rollable, brushable and sprayable
- + Natural wood tones and trendy colors possible with Zobel Premium color mixing system
- + Ideal for facades and much more outdoors
- + Lab tested according standards of DIN EN 927-6
